

Completed variations supporting PROS 19/08

Public Record Office Victoria

PROV has reviewed all current and expired RDAs that may have been used by agencies to sentence records for shorter periods than specified in PROS 19/08 RDA for Records of Organisational Response to Child Sexual Abuse Incidents and Allegations.

PROV has varied the following RDAs so they may no longer be used for records of this type. Most RDAs have been superseded by PROS 19/08, except where the retention periods in the function specific RDAs are greater or there was a need for additional record classes. This list will be updated as more RDAs are varied.

The RDAs can be found in PROV's Document Library.
